

LIST OF FIGURES*

SECTION I

Figure 1.1	The Lucent WaveStar LambdaRouter	5
Figure 1.2	JDSU 1x9 Wavelength Selective Switch ROADM Module	6

SECTION II

Figure 2.1	Worldwide Optical Crossconnect Revenue & Vendor Share.....	10
------------	--	----

SECTION III

Figure 3.1	Plans for Control Plane Based Automation Using GMPLS or ASON	12
Figure 3.2	ITU-T ASON Recommendation Framework	14
Figure 3.3	OIF Optical Control Plane Specification Diagram.....	15
Figure 3.4	UNI 1.0 & UNI 2.0 Comparison	17
Figure 3.5	E-NNI 1.0 & E-NNI 2.0 Comparison	18

SECTION IV

Figure 4.1	OTN Frame Structure	19
------------	---------------------------	----

SECTION V

Figure 5.1	2-Degree ROADM Node Architecture	21
Figure 5.2	4-Degree ROADM Node Architecture	22
Figure 5.3	Packet-Optical Transport System Vendors & Products Comparison	24

SECTION VI

Figure 6.1	Next-Generation Optical Switching Expectations	28
Figure 6.2	Illustration of Packet Switching Versus Burst Switching.....	30
Figure 6.3	Matisse Optical Burst Switching System Building Blocks.....	31
Figure 6.4	Matisse Networks EtherBurst Architecture	32

SECTION VII

Figure 7.1	Alcatel-Lucent Optical Crossconnect Products	34
Figure 7.2	Alcatel-Lucent Announced ASON Customers, 2007-2009.....	34
Figure 7.3	Ciena Optical Crossconnect Products.....	35
Figure 7.4	Ciena End-to-End Provisioning via the PSDE	36
Figure 7.5	Huawei Optical Product Lines	39
Figure 7.7	JDSU Revenue & Profit Figures, Fiscal Year 2004-2008.....	42
Figure 7.8	Sycamore Annual Revenues, Fiscal 2005-2008	44
Figure 7.9	Sycamore Networks Optical Switching Family	45
