

Mobile Healthcare Opportunities

Monitoring, Applications & mHealth Strategies
2010-2015

. . . information you can do business with

Table of Contents

Executive Summary	7
ES1 Introduction	7
ES2 Worldwide Health Systems Today	8
ES3 Developments in Healthcare	9
ES4 mHealth Forecasts	11
ES5 Conclusion	13
I. The Worldwide Health Industry	15
I.1 Introduction	15
I.1 Healthcare System Background and Structure	15
I.2 Implications for mHealth	16
I.2 Worldwide Health Systems Today	16
I.2.1 Worldwide Health Employment	16
Figure 1.1: Distribution of Health Workers Worldwide	16
Table 1.1: Americas and Sub-Saharan Africa Compared	17
I.2.2 Implications for mHealth	17
Table 1.2: Which Applications will be Used Where? Americas and Sub-Saharan Africa Compared	17
I.2.3 Aging Populations Worldwide	17
I.2.4 Impact on the Healthcare Sector	18
I.2.5 Increase in Chronic Diseases	18
Figure 1.2: Prevalence of Diabetes Across OECD Countries (adults aged 20-79 years, 2010)	18
I.3 Developments in Healthcare	18
I.4 The Digitisation of Healthcare Records	19
I.4.1 Personal Healthcare Records	19
i. BlueCross	19
ii. Microsoft HealthVault	20
iii. Google Health	20
iv. Dossia	20
v. Tolven	21
I.5 Conclusion	21
2. mHealth Market Structure	23
2.1 Introduction	23

2.2 mHealth Definitions.....	23
2.3 The mHealth Story to Date.....	23
2.4 Developments in Healthcare	24
2.4.1 Hype or New Dawn?.....	24
2.4.2 Operator, Handset Manufacturer and Venture Capital Initiatives.....	24
2.4.2 The Smartphone App - New Route to Market?.....	25
Figure 2.1: mHealth Possibilities iPhone Connecting to LifeScan Glucose Meter	25
2.4.3 A Tale of Two Markets	26
2.4.4 M-Health’s Role in Developed and Developing Markets	26
2.4.5 eHealth	27
2.5 mHealth Current Status	27
2.5.1 Channels to Market.....	27
Table: 2.1 Route to Market for Varying mHealth Applications.....	28
2.6 mHealth Technologies	28
2.6.1 mHealth Applications	28
2.6.2 Advanced Mobile Apps.....	28
2.6.3 The Role of Short Range Wireless Technologies in mHealth	29
i. Wi-Fi, Bluetooth and ZigBee.....	29
2.7 The Use of Cellular for mHealth.....	30
2.7.1 2G Technologies.....	30
2.7.2 3G Technologies.....	30
2.7.3 LTE	30
2.8 Conclusion	30
3. mHealth Use Cases, Drivers and Inhibitors	31
<hr/>	
3.1 Introduction.....	31
3.1.1 mHealth Services.....	31
Figure 3.1: mHealth Use Cases and Their Ability to Reduce Healthcare Costs	31
Figure 3.2: Implementation Cost Versus Potential Return on Investment, Selected mHealth Use Cases	33
3.2 mHealth Use Cases.....	33
3.2.1 Educational and Information Services Using SMS.....	33
3.2.2 Voxiva’s Health Message Services.....	34
3.2.3 Remote Consultations.....	34
i. Telenor Tele Doctor	34
ii. Grameenphone’s HealthLine.....	35
3.2.4 SMS Based Appointment Reminders.....	35
i. Kaiser Permanente	35
3.2.5 Accessing Patient Records Using The Mobile Device	35
3.2.6 Health Monitoring Using Short Range Wireless Technologies	36

3.2.7 Health Monitoring Using Mobile Technologies	36
3.3 Drivers and Inhibitors	37
3.3.1 Drivers	37
3.3.2 Inhibitors.....	38
3.4 Current Trends.....	38
3.5 Recommendations.....	39
3.5.1 Cost Savings	39
3.5.2 mHealth’s Role in Reducing UK Healthcare Costs	39
3.6 Conclusion	40

4. Remote Monitoring in the Healthcare Sector 41

4.1 Introduction	41
4.1.1 Mobile Monitoring Market Evolution.....	41
4.1.1 The Use of M2M Technologies.....	41
4.2 Remote Monitoring Systems.....	42
Figure 4.1: Sensor Applications in the Health Sector.....	42
4.2.1 Monitoring Use Cases.....	43
i. Glucose Meter	43
ii. Oximeter	43
iii. ECG (Electrocardiograph).....	43
iv. Social Alarm Devices.....	43
4.3 ROI (Return on Investment)	43
4.4 Mobile Monitoring Current Status	44
4.5 Mobile Monitoring Methodology.....	44
Figure 4.2: M2M Healthcare Monitoring Methodology.....	45
Figure 4.3: Number of Individuals (m) That Would Benefit from Mobile Health Monitoring Split by 8 Key Regions 2009-2014.....	45
Table 4.1: Number of Individuals (m) That Would Benefit from Mobile Health Monitoring Split by 8 Key Regions 2009-2014.....	46
Table 4.2: Percentage of Individuals Using Mobile Health Monitoring Split by 8 Key Regions 2009-2014	46
Figure 4.4: Number of Individuals (m) using Mobile Health Monitoring per Year Split by 8 Key Regions 2009-2014	47
Table 4.3: Number of Individuals (m) using Mobile Health Monitoring per Year Split by 8 Key Regions 2009-2014.....	47
Figure 4.5: Number of Mobile Health Monitoring Events per Year (m) Split by 8 Key Regions 2009-2014.....	48
Table 4.4: Number of Mobile Health Monitoring Events per Year (m) Split by 8 Key Regions 2009-2014	48
Figure 4.6: Service Revenues from Mobile Health Monitoring (\$m) Split by 8 Key Regions 2009-2014.....	49

Table 4.5: Service Revenues from Health Monitoring (\$m) Split by 8 Key Regions 2009-2014	49
4.6.1 Health Cost Savings Attributable to Mobile Monitoring.....	50
Table 4.6: Cost to the Health Service of a Single Hospital Bed per Day (\$) Split by 8 Key Regions 2009-2014	50
Figure 4.7: Cost Savings Methodology	51
Table 4.7: Monitoring Cost per Individual (\$) Split by 8 Key Regions 2009-2014.....	51
4.7 Scenario Based Cost Savings	51
4.7.1 Scenario 1: Base.....	52
Figure 4.8: Savings (\$m) Attributable to Mobile Health Monitoring (Base Scenario) Split by 8 Key Regions 2009-2014	52
Table 4.8: Savings (\$m) Attributable to Mobile Health Monitoring (Base Scenario) Split by 8 Key Regions 2009-2014.....	53
4.7.2 Scenario 2: Optimistic	53
Figure 4.9: Savings (\$m) Attributable to Mobile Health Monitoring (Optimistic Scenario) Split by 8 Key Regions 2009-2014	53
Table 4.9: Savings (\$m) Attributable to Mobile Health Monitoring (Optimistic Scenario) Split by 8 Key Regions 2009-2014.....	54
4.8 Conclusion	54

5. Mobile Health and the Smartphone App 55

5.1 Introduction.....	55
5.2 The Rise of The mHealth Application	55
5.2.1 A Brief History of the Mobile App	55
5.2.2 The iPhone and The App Store.....	56
5.2.3 The Impact of the App Store.....	57
5.2.4 Medical Applications	57
5.3 The Smartphone App.....	58
5.3.1 New Route to Market?	58
5.3.2 The Role of the Third Party Sensor	58
5.3.3 Future iPhone Applications	58
5.4 Mobile Applications Forecasts.....	58
5.4.1 Apps Forecast Methodology	58
Figure 5.1: Apps Forecast Methodology, Revenues from Downloads	59
5.4.2 Mobile Users Downloading Lifestyle & Healthcare Apps.....	59
Table 5.1: Mobile Users (%) That Downloaded Lifestyle and Healthcare Applications, Regional Forecasts Split by 8 Key Regions 2009-2014.....	59
Figure 5.2: Number of Mobile Users (m) that Downloaded Lifestyle and Healthcare Applications Split by 8 Key Regions 2009-2014.....	60
Table 5.2: Number of Mobile Users (m) that Downloaded Lifestyle and Healthcare Applications Split by 8 Key Regions 2009-2014	60
5.4.3 Fitness & Healthcare Applications Downloaded.....	60
i. Percentage of Apps Downloaded.....	60

Table 5.3: Percentage of Lifestyle and Healthcare Applications that are Fitness and Healthcare Applications Split by 8 Key Regions 2009-2014.....	61
ii. Number of Subscribers Downloading	61
Figure 5.3: Number of Mobile Subscribers (m) that Downloaded Fitness and Healthcare Applications Split by 8 Key Regions 2009-2014	61
Table 5.4: Number of Mobile Subscribers (m) that Downloaded Fitness and Healthcare Applications Split by 8 Key Regions 2009-2014.....	62
iii. Fitness & Healthcare App Download Revenues.....	62
Table 5.5: \$ Price per Downloaded Fitness and Healthcare Applications Split by 8 Key Regions 2009-2014.....	62
Figure 5.4: Revenues (m) from Fitness and Healthcare Downloads Split by 8 Key Regions 2009-2014.....	63
Table 5.6: Revenues (m) from Fitness and Healthcare Downloads Split by 8 Key Regions 2009-2014	63

5.5 Content Subscription Forecasts 63

5.5.1 Methodology.....	63
Figure 5.5: Methodology for Subscription Revenues, Fitness and Healthcare	64
5.5.2 Number of Content Subscriptions.....	64
Figure 5.6: Total Number of Content Subscriptions (m) Split by 8 Key Regions 2009-2014.....	64
Table 5.7: Total Number of Content Subscriptions (m) Split by 8 Key Regions 2009-2014	65
5.5.3 Revenues from Content Subscriptions	65
Figure 5.7: Revenues from Content Subscriptions (\$m) Split by 8 Key Regions 2009-2014.....	65
Table 5.8: Revenues from Content Subscriptions (\$m) Split by 8 Key Regions 2009-2014.....	66

5.6 Total Revenue from Fitness & Health Apps..... 66

Figure 5.8: Total Revenues from Fitness and Health Apps (\$) Split by 8 Key Regions 2009-2014	66
Table 5.9: Total Revenues from Fitness and Health Apps (\$) Split by 8 Key Regions 2009-2014.....	67

5.7 Advanced Fitness and Healthcare Applications..... 67

Table 5.10: Percentage of Fitness and Health Apps with an External Monitoring Device Split by 8 Key Regions 2009-2014.....	67
Figure 5.9: Number of Fitness and Health Apps Downloaded with an External Monitoring Device (m) Split by 8 Key Regions 2009-2014	68
Table 5.11: Number of Fitness and Health Apps with an External Monitoring Device (m) Split by 8 Key Regions 2009-2014.....	68
Figure 5.10: Revenues Attributable to Fitness and Health Apps Downloaded with an External Monitoring Device (m) Split by 8 Key Regions 2009-2014.....	69
Table 5.12: Revenues Attributable to Fitness and Health Apps with an External Monitoring Device (m) Split by 8 Key Regions 2009-2014	69

5.8 Conclusion 70

6. Profiles and Interviews 71

6.1 Vodafone..... 71

6.1.1 Strategic Focus	71
6.1.2 CSR.....	72

6.2 mHealth Alliance	72
6.3 EpiSurveyor	73
6.4 Qualcomm	73
Figure 6.1: Health Care Band Aid	74
6.5 France Telecom	75
6.6 O²	75
6.7 Research In Motion	76
6.8 Epocrates	77
6.9 Continua Health Alliance.....	77
6.10 MedApps	78
Figure 6.2: MedApps Remote Health Monitoring System at a Glance.....	79
6.10.1 Service Structure.....	79
6.11 CardioNet	79
6.11.1 How Mobile ECG Monitoring Works	80
6.12 LifeWatch	80
6.12.1 Home Sleep Testing Market	81
 Glossary	 83
